B2B Matchmaking: Techtexsil 2015 05th / 06th May 2015, Frankfurt/Main

Collaborations become more and more important to use capacities and synergies to develop and offer customized and innovative products and services. By participating B2B Meetings at international fairs you will get access to extensive technology expertise and new business channels and select your face2face meetings in advance by creating an online profile.

Focus:

Manufacturer, supplier and distributors of technical textiles and applications,
Research centres and universities, Clusters, Service Providers

Main topics

- Fibres/Yarns
- Woven fabrics, laid webs, braiding, knitted fabrics
- Nonwovens, coated textiles
- Composites, Bondtec
- Functional Apparel Textiles
- Advanced Materials

Why to participate

- Find new commercial/technological/research partners
- Expanding your business abroad
- Present, discuss and develop new projects
- Targeting potential business partners in pre-scheduled one-on-one meetings
- Find out about market trends and innovations

Further information and registration: <https://www.b2match.eu/techtexsil2015>
